Leather

Care / Washing Instructions

For light cleaning of leather garments, gently wipe the exterior with a damp cloth. For more thorough cleaning, purchase specialty leather care products and follow the instructions on the packaging. To refresh the interior of the jacket, use [Molecule Apparel Refresh](#), available in 4 oz or 16 oz sprayers from Helmet House or a local dealer.

Textile

Care / Washing Instructions

To care for textile garments, avoid machine washing, drying, or ironing. Do not use bleach or harsh chemicals. Instead, gently hand wash in warm water with mild soap or a specialized textile cleaner such as Molecule Apparel Wash, available in 4 oz or 16 oz bottles from Helmet House or a local dealer. Always allow the garment to air dry. For optimal maintenance between washes, consider using [Molecule Apparel Protector](#) and [Molecule Apparel Refresh](#). These products help keep your textile jackets looking sharp, lasting longer, and smelling fresh.
