

# Shield Care Instructions

## INSTRUCTIONS

---

### 💧 Wash and Rinse

Use a neutral detergent diluted with water to gently wash your helmet shield. Rinse thoroughly with clean water to remove any soap residue.

### ✿ Drying

After washing, wipe off excess moisture with a soft cloth. Allow the shield to dry naturally in a well-ventilated area.

## IMPORTANT PRECAUTIONS

---

### ☢ Avoid Harsh Cleaners

Do not use cleaners containing organic solvents, such as hot water, salt water, acidic or alkaline detergents, benzine, thinner, gasoline, or glass cleaner, especially if the temperature exceeds 40°C.

### 🚫 No Heat Drying

Do not use a dryer or expose the shield to direct fire to dry

### ♻ Replacement

If your shield has scratches or stains that cannot be removed, consider replacing it with a new one for optimal visibility and safety.
