### Care / Washing Instructions

To care for your rainwear, avoid machine washing, drying, or ironing. Refrain from using bleach or harsh chemicals. Instead, hand wash gently in warm water with mild soap or a specialized cleaner like Molecule Apparel Wash, available in 4 oz or 16 oz bottles from Helmet House or local dealers. Always let your garment air dry. For ongoing maintenance, consider using Molecule Apparel Protector and Molecule Apparel Refresh to keep your rainwear looking great, lasting longer, and smelling fresh.
